Catalogue 2020

WELCOME TO OLIVE TREE CATALOGUE, 2020

Dear Educators,

We, at Olive Tree, with renewed energy and commitment, have launched one of the most effective learning solutions for young learners, blending quality print material with digital and online support.

The series is supported with digital content, which supports the application of multiple intelligence in the classroom. It is an integrated solution consisting of textbooks, interactive e-book, assessment, multimedia and collaborative features. The series supports teachers with lesson plans, worksheets and a question bank with a test generator.

Our research and well-informed insights into modern education have helped us understand that although the time to learn is fixed, the quantum of learning is variable. Every year, students get the time frame of 'one academic year' to learn as much as they can about a multitude of subjects. The system of 'one academic year' allows some students to excel with flying colours while others face huge obstacles in terms of knowledge gaps. The company has taken the initiative to improve the system of education by attempting to fill these knowledge gaps through blended learning.

We look forward to your patronage and cooperation as we continue to strengthen the education system for our learners so that they understand and appreciate varied perspectives, and in the process move towards the path of progressive self-discovery and become truly global citizens.

Code	Book Name	Pages	Price
20052	Upvan-1	88	185
20053	Upvan-2	88	190
20054	Upvan-3	104	205
